TENT COOPERATION TREAT'A

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

International application No. PCT/KR2004/001565 Applicant AHN, Jae-Wan This International search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of3 sheets. It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. 1. 2. Certain claims were found unsearchable (See Box No. II) 4. With regard to the cittle, Yeard to the cittle, The text is approved as submitted by the applicant. The text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority. With regard to the drawings to be published with the abstract is Figure No as suggested by the applicant. Decause the applicant failed to suggest a figure. Decause the figure of the drawings to be published with the abstract.	Applicant's or agent's file reference PCT20047AJW	FOR FURTHER ACTION as w	see Form PCT/ISA/220 rell as, where applicable, item 5 below.
APPlicant AHN, Jae-Wan This International search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report donsists of a total of		International filing date (day/month/year)	
AHN, Jae-Wan This International search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of 3 sheets. It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I. Certain claims were found unsear-chable (See Box No. III) With regard to the citet. With regard to the tittle, the text is approved as submitted by the applicant. the text has been established by this Authority to read as follows: With regard to the abstract, With regard to the abstract, the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority. With regard to the drawings to be published with the abstract is Figure No. With regard to the drawings to be published with the abstract is Figure No. Because the applicant failed to suggest a figure. because the applicant failed to suggest a figure. because this figure better characterizes the invention.		26 JUNE 2004 (26.06.2004)	•
This international search report consists of a total of	AHN, Jae-Wan		
It is also accompanied by a copy of each prior art document cited in this report. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. - Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
